DETAILED ACTION

Allowable Subject Matter

1. Claims 11, 13-14, 16-18, 20, 22, 26, 28-30 allowed.
2. The following is an examiner's statement of reasons for allowance: No prior art discloses or suggests claim 11, specifically regarding inter alia "wherein at least one of the piston pumps, combined hydraulically into a pumping unit is actuated by a different cam from the respective other piston pumps of the corresponding pump unit". Instead, the prior art teaches pumping units as defined by the claim to be entirely actuated by the same cams. For instance, see Willmann (6,446,435). Willmann discloses two pumping units (see the pumps that belong to systems I and II) going to at least one system (see Willmann systems I and II), however fails to show pump units having certain pumps going to different systems from the rest of the pumps on that pump unit. Springfield (1,964,679), a similar system, also fails to show pump units having certain pumps going to different systems from the rest of the pumps on that pump unit.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
